**No wonder he needed a hair band!**

**I wonder if he suffered indigestion**

In the Raddite holy books Zarpod's are giant beaked winged feathered beings.

Guardians of the Princes of Hesse.

Dr. Yokel might tell more as he is old.

That Planet Hesse is inhabited by lower intelligent beings like Zarpod's and Urs  
scraping a living away from civilisation: and Urs are flightless apes.

"Ugly things lacking wings. Look like over grown green monkeys," Shaman Hagi.

But flying Zarpod's and walking Urs were friends. Hoping for The Deliverer who  
would let them walk Hesse again, without Hessians throwing trash, stones, insults and  
worse at them.

Simple, trusting characters like children. Fearing Rad and wife Both the moon, for  
their misery was punishment from these powers. Rejected for wrongs they didn't  
understand, except being ugly. Sad unloved, except for Zacross who had found The  
Deliverer.....His wait was over.
